CONGRATULATIONS!
You've taken that first step toward participating more actively in life.

DOCTOR RECOMMENDED
"I will be recommending these to my patients with hearing loss."
— Dr. A. Kulkarni
Board-Certified Family Practice Physician

"Why can't someone harness hearing aid technology and make it affordable for me?"

At MDHearingAid®, someone just did.

Dear Friend,
Throughout my career as an Ear, Nose, and Throat physician, I've made it a priority to educate my patients on the hidden, but very real, costs of untreated hearing loss.

Inevitably, my patients keep making the same comments: "My hearing isn't THAT bad." Or: "Hearing aids are too bulky, too embarrassing to wear, too expensive. What's the harm in waiting a couple of years?"

The truth is, the person with a hearing problem is often the last to notice it because the change starts subtly and increases gradually. Yet there's little question that untreated hearing loss can be disruptive. It can start arguments, cause misunderstandings and even result in some embarrassing moments.

I was determined to develop a medical-grade hearing aid that was technologically advanced, simple to use, almost invisible and, most of all, affordable. I'm confident that we succeeded with the MDHearingAid® AIR and PRO, both of which incorporate advanced technologies found on traditional hearing aids costing thousands of dollars more. You will get incredibly accurate sound quality at a fraction of the price.

With the price barrier removed, you can now hear for yourself how hearing aids can make a difference in your participation in life. Try one of our hearing aids risk-free and with confidence, knowing your satisfaction is guaranteed.

You have my word on it.

Sincerely,
Dr. Sreek Cherukuri
Board-Certified Otolaryngologist
Founder of MDHearingAid, Inc.

P.S. Our MDHearingAid® models have been extensively tested by physicians and audiologists and, most of all, by over 100,000 satisfied customers. Now it's your turn.

INCREDIBLE
"I have been wearing hearing aids for over 25 years and these are the best behind-the-ear aids I have tried. Their sound quality rivals that of my $3,000 custom of Phonak® Xtra digital ITE."
— Gerald L.

TRANSFORMATIVE
"From the first day I put on my new AIR I was surprised to hear sounds I had forgotten existed – the creaks of the bell we use in church, the splash of water running, the rich overtones in music. Thank you, MDHearingAid.
— Rev. Dawson John C.

REMARKABLE
"I have a $2,000 Resound® Live hearing aid in my left ear and the MDHearingAid PRO in the right ear. I am not able to notice a significant difference in sound quality between the two hearing aids."
— Dr. Mig, Otolaryngologist

AMAZING
"I'm 61 and figured I was too young to wear any hearing aid. I played drums in garage bands for years in my younger days and now I'm paying the price. I received my MDHearingAid AIRs and put them in – WOW! It all I can say I gotta tell ya from a REAL USER... the MDHearingAid AIRs work and I highly recommend them!"
— Scott D.

VALUE-PACKED
"The MDHearingAid is the BEST hearing aid I have used at ANY price!"
— Edward S.

EFFECTIVE
"I'm a physician and I know how much people spend on their health care. This product is just as effective (if not more) than traditionally over-priced hearing aids. I will be recommending MDHearingAid to my hearing-impaired patients."
— Dr. Chang

LIFE-CHANGING
"This is truly a miracle... I don't even know how to begin thanking you for giving me my life back!"
— Sherri H.

MDHearing Aid® PRO

The MDHearing Aid® PRO is a good choice for those customers for whom price is the overriding consideration and who prefer a premium analog experience.

- Delivers crisp, clear sound that targets the critical frequencies of the human voice.
- 2-Program switch that accommodates many types of hearing loss.
- Self-controlled volume dial
- Closed and open-fit ear domes in multiple sizes to fit most adult ears

"Our entire family thanks you so much for giving us our Dad (and Grandfather) back and at a price he can afford." — Terry, February 17, 2014

Which should I choose? AIR or PRO?

Leading ENT physicians and audiologists have rigorously tested each of the MDHearing Aid® models. They ALL report that the sound quality and output often exceed expensive traditional hearing aids. The PRO is our original value-priced premium analog hearing aid. Should you desire a more advanced all-digital aid, the AIR is the better choice.

Small size . . . Tiny price . . . Big value!

How can you sell quality hearing aids for so much less than the traditional high-priced ones?

MDHearingAid® retains complete control of every portion of the hearing aid design and manufacturing process. Our technology is comparable to hearing aids that sell for thousands of dollars more, yet we eliminate the middlemen and mark-up... saving you money.

Will MDHearingAid® review my hearing test?

Yes! Our physicians and audiologists will review your test and provide guidance at no charge to you. Please fax your recent hearing test results to 1-800-937-5970 or email it to support@mdhearingaid.com.

Can I get by with just one hearing aid?

Just as eyeglasses improve vision in both eyes, two hearing aids provide a richer, clearer and more balanced hearing experience. Wearing two hearing aids will give you better sound quality, better hearing in noisy situations, and with soft sounds, like children’s voices. To encourage your success, we provide guidance at no charge to you. Please fax your recent hearing test results to 1-800-937-5970 or email it to support@mdhearingaid.com.

How can I be certain I’ll be satisfied?

Our satisfaction guarantee ensures it. We back all models with a 100% money-back guarantee. If you’re not satisfied within 45 days, we’ll refund every last penny of your purchase price.
